Project Design Phase-I

Solution Architecture

Date	20 October 2022
Team ID	PNT2022TMID01082
Project Name	IoT Based Safety Gadget For Child Safety monitoring & Notification
Maximum Marks	4 marks

Solution Architecture:

Solution architecture is a complex process – with many sub-processes – that bridges the gap between business problems and technology solutions. Its goals are to:

• Find the best tech solution to solve existing business problems.

• Describe the structure, characteristics, behavior, and other aspects of the software to project stakeholders.

• Define features, development phases, and solution requirements.

• Provide specifications according to which the solution is defined, managed, and delivered.

Solution Architecture:
